2. Definitions

The following terms have specific meanings within this Silver Plan policy. Terminology is consistent with the MediShield Gold Plan where applicable, but cost-sharing thresholds differ.

Actuarial Value:

The percentage of total average costs for covered benefits that a health plan will cover. The Silver Plan has a 70% actuarial value -- on average, members pay 30% of costs. Individual experience will vary based on actual services used.

Pre-existing Condition:

Any illness, injury, or medical condition for which the Policyholder received medical advice, diagnosis, care, or treatment within the 24 months immediately preceding the Effective Date. Subject to a 24-month waiting period before benefits are payable. Per the ACA, pre-existing condition exclusions cannot be applied to essential health benefits for non-grandfathered plans.

Deductible:

The amount a member pays for covered health care services before the insurance plan begins to pay. For the Silver Plan, the individual deductible is $3,000 in-network. Preventive care and certain copay services are exempt from the deductible.

Cost-Sharing Reduction (CSR):

A federal subsidy available to eligible members enrolled through the Health Insurance Marketplace with incomes between 100-250% of the Federal Poverty Level. CSR variants of the Silver Plan (CSR 73, CSR 87, CSR 94) have lower cost-sharing than the standard Silver Plan. Eligibility is determined at enrollment.

Network Provider:

A physician, hospital, or other healthcare provider that has a participation agreement with MediShield to provide covered services at negotiated rates. Using in-network providers results in significantly lower cost-sharing under the Silver Plan.

Essential Health Benefits (EHB):

The ten categories of services that ACA-compliant plans must cover: (1) ambulatory patient services, (2) emergency services, (3) hospitalization, (4) maternity and newborn care, (5) mental health and substance use disorder services, (6) prescription drugs, (7) rehabilitative services, (8) laboratory services, (9) preventive and wellness services, (10) pediatric services including oral and vision care.

Out-of-Pocket Maximum:

The most a member pays for covered services in a plan year. After this amount is reached, the plan pays 100% of covered in-network services. For the Silver Plan, the individual OOP maximum is $8,550 in-network (ACA maximum for 2025).

3. Inclusions (Covered Services)

The following services are covered under the MediShield Silver Plan, subject to the cost-sharing amounts in the Schedule of Benefits and any applicable waiting periods.

* Outpatient surgery and procedures performed in a licensed ambulatory surgical center or hospital outpatient department.

* Preventive care: annual wellness exams, immunizations, cancer screenings (mammography, colonoscopy, Pap smear), blood pressure and cholesterol screening at $0 copay when performed by an in-network provider.
